1

Internal Communication

BSIS Training Manual

Internal security communication protocols define:

- A. How security guards communicate with external media representatives
- C. How to complete a BSIS guard card renewal application

✓ **B. Who to contact, when to contact them, and which methods to use for the security operation**

- D. The required format for court testimony by security personnel

B

2

Internal Communication

BSIS Training Manual

Radio communication by a security guard should be:

- A. As comprehensive as possible to capture all relevant details in real time
- ✓ **C. Clear, concise, and conducted using established codes and protocols**

B. Casual and conversational in tone to reduce perceived tension during contacts

- D. In plain English only — BSIS prohibits the use of any codes or abbreviations

C

3

Internal Communication

BSIS Training Manual

Before transmitting a message on a two-way radio, a guard should:

- A. Transmit immediately — delays in communication create operational risk
- C. Announce their location and full name at the beginning of every transmission

✓ **B. Listen to confirm the channel is clear, press push-to-talk, wait one second, then speak**

- D. Contact the dispatch center to request authorization before each transmission

B

4

Internal Communication

BSIS Training Manual

Upon observing a serious incident at their post, a guard should notify their supervisor:

A. After completing and submitting the full written incident report

✓ **C. As soon as it is safely possible — immediately for any urgent or dangerous situation**

B. At the end of the guard's shift during the standard shift handoff

D. Only if the client property owner or manager specifically requests a notification

C

5

Internal Communication

BSIS Training Manual

Security technology such as CCTV systems, alarm panels, and access control units are classified as:

A. Optional tools that guards may use at their individual discretion

C. Law enforcement equipment that requires a separate BSIS or government certification to operate

✓ **B. Internal communication and operational tools that guards must understand and use per post duties**

D. Exclusively the property owner's equipment that guards should not touch with or report on

B

6

External — Emergency Responders

BSIS Training Manual | 911

When placing a 911 call to report an active security incident, the guard must provide which information first?

A. Their BSIS license number and the PPO company name

C. Only their name and company name — dispatchers are trained to gather additional details

✓ **B. Their current location — building address, floor, and specific area of the facility**

D. A complete written incident report before placing the call to ensure

B

7

External — Emergency Responders

BSIS Training Manual

When law enforcement arrives at an active incident managed by a security guard, the guard should:

A. Continue managing the situation independently until officers formally request a handoff

✓ **C. Give officers a brief, accurate verbal briefing: situation, parties, any hazards, and actions taken**

B. Present their written incident report to officers before providing an incident briefing

D. Withdraw entirely from the scene and have no further communication with officers

C

8

External — Emergency Responders

BSIS Training Manual

A guard discovers a person who is unconscious at their post. The appropriate action regarding 911 is:

A. After completing the incident report, if the situation is not obviously an emergency

✓ **C. Call 911 immediately — life safety calls are always the highest priority**

B. Only if explicitly directed to do so by a supervisor

D. Only after all available on-site first aid measures have been exhausted

C

9

External — Medical Personnel

BSIS Training Manual

When emergency medical services (paramedics or EMTs) arrive at a scene, a security guard's role is to:

A. Continue providing first aid concurrently alongside the medical professionals

C. Assume full crowd and scene control without communicating directly with medical personnel

✓ **B. Clear bystanders, provide access to the scene, brief medical personnel on the situation, and stand by**

D. Document the paramedics' clinical actions in full detail for the incident report

B

10

External — Medical Personnel

BSIS Training Manual

Patient confidentiality obligations require a security guard to:

- A. Share the patient's identifying and medical information openly with any bystander who might assist
- C. Photograph the patient for documentation purposes in the incident report

✓ **B. Limit disclosure of patient information strictly to what is necessary for first responders to do their job**

D. Record the patient's verbatim statements and observations in full in the incident report

B

11

External — Police / Enforcement

BSIS Training Manual | PC §847

When transferring custody of a citizen's arrest subject to law enforcement, the guard must communicate:

- A. Only the subject's name — law enforcement will conduct their own independent investigation
- C. Nothing until an attorney for either party is present

✓ **B. The reason for the arrest, the guard's specific observations, and a list of evidence that was secured**

D. Only information that is already reflected in the written incident report

B

12

External — Police / Enforcement

BSIS Training Manual

Information gathered during a security investigation must NEVER be communicated to:

- A. Paramedics who are treating an injured party at the scene
- C. The PPO supervisor who is responsible for the post

✓ **B. The person being investigated or their known associates**

D. A second law enforcement officer who arrives to assist

B

BSIS Training Manual

13

External — Police / Enforcement

The most effective approach to ensuring accurate communication with law enforcement during a handoff is to:

- A. Provide a detailed personal interpretation and analysis of the events
- ✓ **C. Present observable facts only, using precise times and locations, with reference to written notes**

- B. Rely entirely on memory to deliver a comprehensive verbal account
- D. Share your personal conclusions about the suspect's motivation and future behavior

C

BSIS Training Manual

14

External — City & Government Services

A guard discovers a broken fire hydrant actively leaking on the property. The appropriate notification is to:

- A. The property owner's insurance carrier to initiate a damage claim
- ✓ **C. The city's water department or utility emergency services line**

- B. Local law enforcement — they are responsible for all public infrastructure issues
- D. BSIS — all significant infrastructure incidents at a post must be reported to the Bureau

C

BSIS Training Manual

15

External — City & Government Services

When a city code enforcement officer arrives to conduct an inspection of the property, the guard should:

- A. Deny access until the property owner or manager provides written authorization
- C. Accompany the officer on the full inspection without notifying anyone in the management chain

- ✓ **B. Allow access to the facility and immediately notify the property owner or supervisor**
- D. Request a certified copy of the inspection order before taking any action whatsoever

B

16

External — City & Government Services

BSIS Training Manual

A visitor lodges a formal complaint about a noise ordinance violation occurring on the premises. The guard should:

- A. Issue a formal written warning to the party allegedly violating the ordinance
- ✓ **C. Attempt to resolve the matter internally first, document the outcome, and escalate to appropriate city authorities only if unresolved**

- B. Immediately contact the city noise enforcement line without speaking to any parties involved
- D. Decline to intervene, as noise ordinance enforcement is outside the security guard duties

C

17

Non-Verbal Communication

BSIS Training Manual

Non-verbal communication in a security context primarily includes:

- A. Radio transmissions and written incident reports — the official record of all guard communication
- C. Hand signals used exclusively in high-noise environments where radio communication is unavailable

- ✓ **B. Body language, posture, eye contact, facial expression, and physical proximity**
- D. Written shift logs and CCTV footage review

B

18

Non-Verbal Communication

BSIS Training Manual

A security guard's body language while on post should project:

- A. Physical dominance and visible readiness for confrontation to deter potential threats
- C. Deliberate disengagement to reduce the likelihood of unwanted confrontations

- ✓ **B. Professional alertness, calm confidence, and an approachable demeanor**
- D. Visible deference and submission to reduce the risk of escalating difficult situations

B

19

Review

BPC §7583.6

A person approaches the front desk and requests to speak with a manager about a complaint. The guard is unfamiliar with the appropriate manager for that type of issue. The BEST response is:

A. Direct the person to come back at a later time when the appropriate manager is available
✓ C. Acknowledge the concern professionally, obtain the visitor's contact information, and relay it to the appropriate supervisor promptly

B. Treat the complaint as a potential security concern and contact law enforcement
D. Refer the person to the company's public website for contact information

C

20

Review

PPO License | BPC §7583.6

MACCESS INC.'s California Private Patrol Operator license number — which is required to appear on all BSIS Certificates of Completion — is:

A. #112233
C. #133445

B. #100001
✓ D. #122729

D

SCORING GUIDE & INSTRUCTOR NOTES

Passing Score

100% — all 20 questions correct required per BPC §7583.6(b)

Failed Assessment

Full retake required. Student must review all course modules before retaking.

Certificate

Issue Certificate of Completion ONLY upon 100% score. Sign, date, and retain a copy.

Record Retention

Retain each student's assessment record for duration of employment. Available to BSIS on request per Title 16 CCR §643(b).

Confidentiality

This answer key is for MACCESS INC. instructor use only. Never share with students before, during, or after assessment.

Live Scan

Live Scan integration is pending equipment acquisition. When active, completed LS records will be stored alongside training records.
